+ € 520

Custom colours (Genesi, Ascot)

+ € 1296

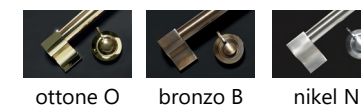

AVAILABLE FINISHES

Standard finish (Ascot)

On demand finishes (Ascot)

+ € 175

FEATURES

- *Natural Ion Tech*: the negative ions released in the refrigerator interact with pollutants and dust particles improving the air quality and reducing the amount of malodor particulates

- *No-Frost Multicooling*: managing the refrigerator's and freezer's air circulation separately, this technology guarantees extra freshness and optimum humidity levels in each compartment

- *Less Frost*: thanks to a wrap all around the evaporator of the freezer, cooling and storing are more efficient

- *Maxi Fresh Preserver*: the technology absorbs ethylene gas released by fresh foods keeping them fresh longer and avoiding unpleasant odors in the crisper

- *Humidity-Control Crisper + Vitastore*: the crisper allows to adjust the level of humidity thanks to the air channels and special filter, and the Vitastore technology helps keeping fruits and vegetable fresh longer

- *Chill-Zone*: the compartment keeps the temperature around 0°C ensuring safe defrosting of meat and fish and making it ideal for storing the foods longer without unwanted odors

- *Top + Sides LED lighting*: high brightness of the entire capacity thanks to LED strips positioned on the top and sides of the refrigerator

- Electronic control of the temperature

- Open-door alarm

- *V-Lift*: easy adjustment of the rack's height in six different positions

- Stainless steel back (stainless steel bodied versions)

- Tempered glass shelves with stainless steel profile

- Bottle fingers to hold the bottles in the door rack

- Wine rack

- Egg Holders

- Big Boxes in the refrigerator and freezer

- Double ice-cube container in the freezer

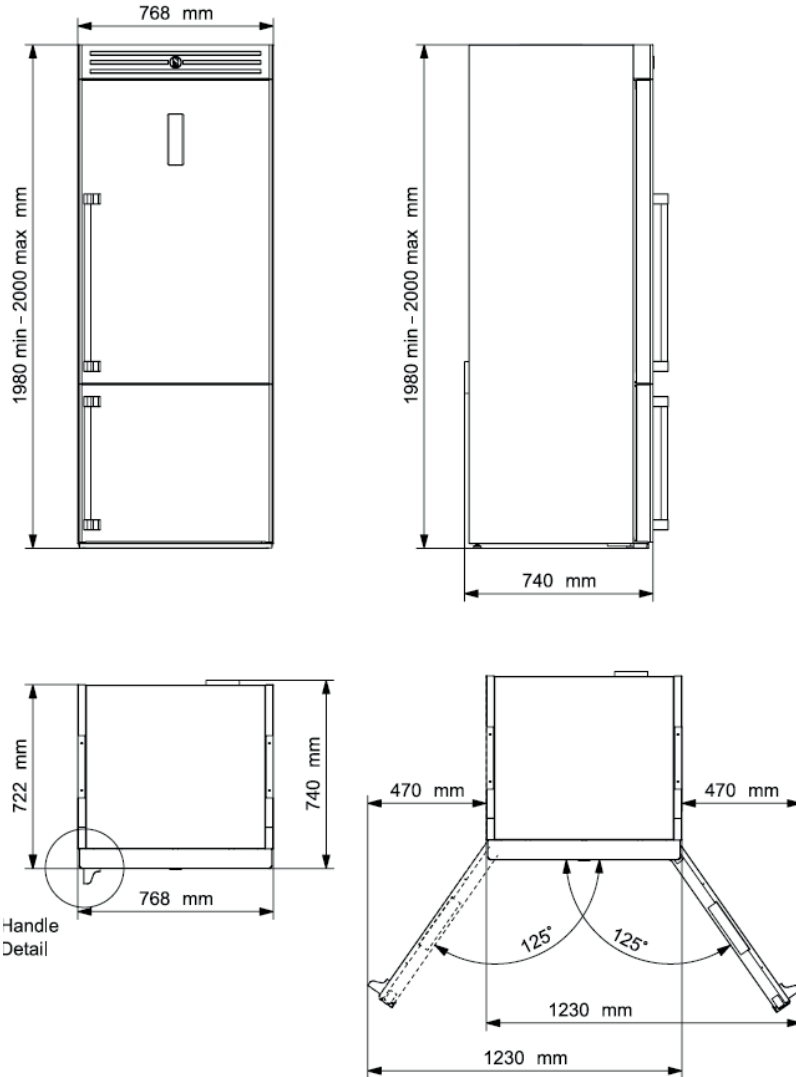

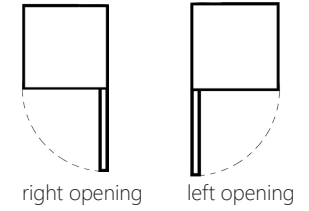

SPECS:

Total capacity **534 L** (refrigerator capacity **403 L**, freezer capacity **131 L**)

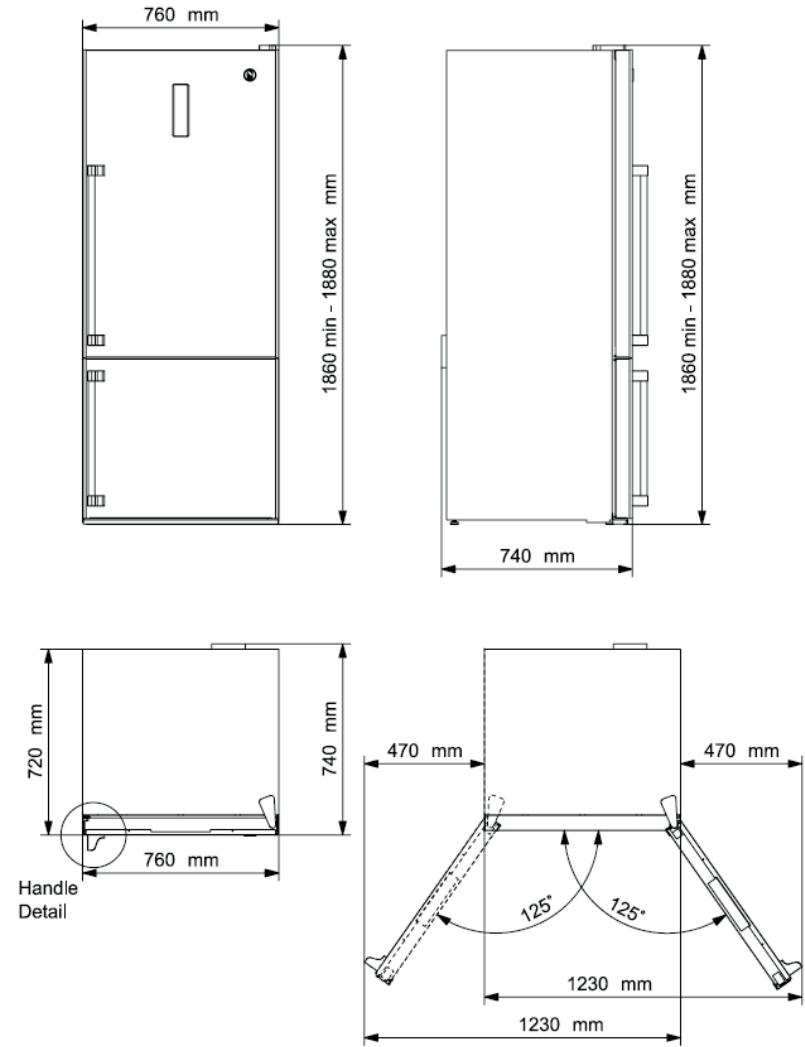

Energy class **E**

Consumption **284 Kwh/a**
